

Freedom Executive Chair Features

1) RECLINE ACTION

As you recline, you'll maintain a near consistent eye level, while the angle between your torso and legs opens up for better body function.

2) CONTOURED CUSHIONS

The cushions are sculpted to closely follow body contours, which increase contact and decreases concentrated loads. Our optional Technogel[®] seat cushion maximizes weight distribution and comfort.

3) RESPONSIVE BACKREST

The pivoting backrest automatically adapts to the changing needs of your spine during recline.

4) SYNCHRONOUS ARMRESTS

Freedom's body-friendly gel armrests move up and down together and stay with you during recline, always keeping you in supported balance.

5) BODY FIT

The seat and backrest may be independently positioned to fit your exact body size.

6) INTELLIGENT MECHANISM

With Freedom's revolutionary counter-balance mechanism, your weight automatically balances the force required to recline the chair. So whether you're big or small, short or tall, the recline tension is always perfectly adjusted to let you move while keeping you fully supported in all positions.

Standard Features

Self-Adjusting Recline

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

Pivoting Backrest

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides up to 1" additional lumbar support when needed

Synchronous Armrests

- Revolutionary armrests move in tandem to eliminate uneven arm positioning
- Natural lift and release action for immediate repositioning without buttons or locks
- 6" range of vertical motion to accommodate all users and tasks
- Can be positioned below thigh level for close table or desk work
- Attached to backrest so arms stay in same relation to body during recline
- Duron arm pad for durability and comfort

Standard Cylinder

- Provides seat height range that accommodates 95% of the population

Contoured Cushions

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement

Body Fit

- Size adjustable to fit more than 95% of the population
- Adjustments for fit-to-size:
 - Seat Height: 5" adjustment range
 - Seat Depth: 2.25" adjustment range
 - Backrest/Lumbar Support Height: 3" adjustment range

Hard Casters

- 2.5" double-wheel casters for carpeted floors

Optional Features (Special Order)

Dynamic Headrest

- Position-sensitive headrest moves into place when you recline and out of the way when you sit upright
 - 5" vertical adjustment to fit all users
 - Moves in the natural arc of head/neck for perfect support through range of recline
 - Contoured to cradle the head and neck in comfort
-

Gel Seat Cushion

- Non-degradable, non-compressible Technogel® layer on top of foam core
 - Provides maximum pressure distribution
 - Offers unmatched, long-term comfort
-

Arm Pad Option

- Flexible Duron
 - Technogel® for optimal comfort
-

Cylinder Options

- Low cylinder for small users
 - Tall cylinder for very tall users
 - High cylinder with foot ring
 - Extra-high cylinder with foot ring (Saddle seat only)
-

Foot Ring

- Chrome finish
 - Height-adjustable
-

Caster Options

- 2.5" soft double-wheel casters for hard floors
 - Non-rolling glides for fixed-location use
 - 2.5" locking casters
-

Fireproofing

- CAL 133-approved
- Fireproof barrier between textile and foam
- Fire-retardant plastics
