

flipIT Desks® for the Multi-Use Classroom

SPECIFICATIONS

PC Computer Desks with flipIT® monitor mounts

The flipIT® has revolutionized the way computer classrooms can be used. This patented device rotates LCDs into a semi-recessed position— perfect for the user to view the screen and to have unobstructed sight lines in the classroom. Computers can be instantly put away when the teaching method shifts from computer use to lecture, demonstration, or focus on textbooks or mobile devices. This opens up lesson plans and makes the computer classroom a truly multi-purpose classroom where computers are not in the way or causing a distraction. flipIT® allows freedom of access under complete instructor control.

flipIT® Kit US Patent No. 7,509,912

All desks include:

- 1" x 3" J style wire management channel (12 amp rated)
- PD-FC714 power strip, 6 outlets, 10 foot 14-3 power cord, 12 AMP rating
