

Floor + Furniture Integration Technology (FFIT)

## Get FFIT with Powerflor® Raised Access Floor System

From the floor through the furniture to the technology for each user— FFIT is an integrator's dream come true.

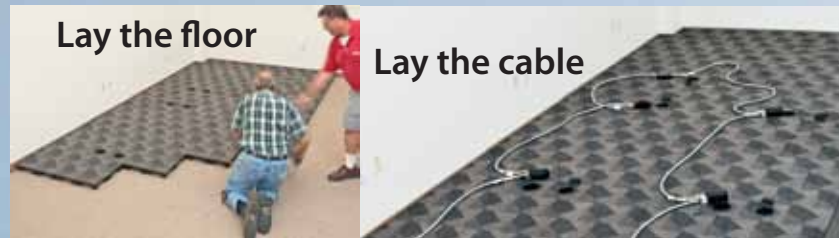

**Power Distribution and Data Cabling**  
**Faster. Cheaper. Greener.**

Here's how Powerflor® saves money & time:

- Installs in hours, not days
- Specialized labor not required for installation
- Easily coordinates with other trades
- Not a part of the building, depreciates like furniture
- Lower cost alternative to conventional carpet & electrical contracting

Powerflor® is **GREEN:**

- **Reusable! Accommodate move, add, change and churn without waste**
- Put power and data anywhere
- Relocate power and data any time
- Move the floor system to another room or building
- Reuse and re-arrange as you would the furniture

Lay the floor

Lay the cable

Bury the cable

Move, Add and Change any time

Connect

Flexible conduit ports directly to SMARTdesks furniture.

Serves power and data connections

Presence Podium alternate top features flipIT® 18 Laptop Power Safe
