

armPadTM 7000

Support your iPad® “hands free”

- Free-up work surface space
- Stow iPad in mid-air, out of the way
- More freedom
- Security enclosure
- “No Home Button” version restricts access for better classroom control

The armPad 7000 is available with clamp mount or grommet mount, placed to offer the greatest number of positioning options. Located near the user edge, the iPad can be placed at keyboard height so you don't have to scrunch up your posture and use your lap.
