HorizonLine™

Computer Tables and Laptop Tables for Classroom 2.0

Offline

HorizonLine™

It's all about the user experience.

As the name implies, HorizonLine™ lets you see to where the edge of your world touches the infinite. No visual obstructions get in your way. When you want to see the computer screen, there it is, but you can still see the projector screen, the teacher—everything you need see.

When you don't need the computer, it's out of the way. The screen is under the desktop. The keyboard is retracted. The CPU is stowed. What could be easier?

Data wire management passes cables through the leg from the floor to the modesty panel. J-channel conducts the cables horizontally. A power strip or surge suppressor with 10 foot cord is provided for power distribution. The back of the CPU is open for connections. Keyboard, mouse and screen are easily connected. No mess. Shown with Brig CPU holders, FIK-18 flipIT® for LCDs up to 17.5"wide, and locking casters for mobility. Other options available, including the flipIT® Laptop Safe

Online

Language labs are supported with the flipIT Port. USB, microphone, stereo headphone and headphone volume control are neatly organized under a hinged cover. Other connector ports are available, including products we custom configure to your needs. See our ComPort™ products online.

Now you can have the full cinema display media experience! 16:9 Widescreen LCDs up to 23 inches wide (584mm) mount to flipIT-23 with the included VESA bracket. Standard 19" LCDs with case widths up to 17.5 inches (444.5mm) mount to flipIT-18.

Widescreen monitors demand wider desks, so the flipIT-18 allows you to achieve a greater number of students in the classroom.

HorizonLine™

Specifications

Top - 1.25" thick MDF with comfort contoured front and back edges and break side edges. Fully encapsulated with surf(X)® 3D laminate top. Designed with advanced-durability, surf(x) 3D Laminates to provide an increased level of impact, scratch, marring, heat, and abrasion resistance compared to standard thermofoils. Their increased stain and impact resistance make them especially suited for work surfaces. Superior compared to High Performance Laminate (HPL):

Test	HPL	surf(x)®
Burnish Mar	Moderate	None/Slight
Hoffman Scratch	400g	1000g
NEMA Wear	400 cycles	1400 cycles
NEMA Cleanability	10	13-25

Modesty Panel - 1/2" thick MDF with contoured edges, matching top finish outside, black inside.

C Legs – 2" diameter tubular steel finished flat black with nylon ballnose end caps, anti-tipping wings and adjustable floor glides. Locking casters optional. Optional mounting bracket used for attaching accessories, such as CPU holder or storage compartment, packaged with CPU Holder system.
