## FAX Specification Form

for  
**Individual Telecom Plates**

This is a worksheet to help you enter your quote request using our iQuote online system. You may also fax this form to us to help communicate your needs.

Enable your e-mail filter to accept correspondence from **smartdesks.com** to facilitate our communication.

If you need additional forms, you may photocopy or print out extras to use. You do not need to fax pages about product you are not specifying.

Please download specifications from smartdesks.com to clarify sizes of cutouts required for installation.

General information about connectors is supplied for your convenience. If you have specific connectors or cable holders that you want installed, please include that information with your request. We will do our best to engineer that for you and procure those connectors.

**Fax to:**  
**CBT Supply, Inc. dba**  
**SMARTdesks**  
**877-620-7411**

Comments:

Attached pages specify individual telecom plates.

flipIT® Laptop Safe Telecom Plates can be interchanged, so you may order additional plates configured for special applications and swap them out as needed.

Please indicate quantity of plates configured alike on each sheet attached.

# Laptop Safe / Individual Telecom Plate

Check the boxes of preconfigured choices, or list your connectors in the blank space below. Connector size determines how many may fit on the plate. Use the preconfigured examples as a guide.
