

MPLEX®

Multimedia Computer Podiums

Seven basic styles, customized
for your technology choices and
presentation technique

SMART*desks*

MPLEX[®] Multimedia Computer Podiums

Seven models to choose from, a large selection of designer finishes, all designed for practical support of the technology and the comfort of the people using it. A perfect fit of beauty, utility and economy.

MFI Series

Incorporates SMARTdesks' unique flipIT[®] integrated LCD mechanism that provides a semi-recessed view of the display when the monitor is in use, eliminating any obstruction of the line-of-sight between instructor and student. The LCD screen is visible to the teacher from behind and to the sides of the lectern so there is more freedom to move around while lecturing.

MSR Series

For mounting 14-21 inch CRT monitors in semi-recessed position. Provides unobstructed sight lines and visibility at varied viewing angles.

Shown with ergonomic keyboard and casters options.

MFP Series

Semi-recessed LCD monitor placement provides similar advantages for sight lines and visibility at varied viewing angles.

Shown with locking single and double equipment and storage bays, which are available in two depths and 4 widths. Doors are on 270° hinges to enable them to fold flat against the sides when the lectern is in use. Casters are optional.

MSRC Series

Features raised panel design for that “Classic” look. Mount 14-21 inch CRT monitor in semi-recessed position for unobstructed sight lines and visibility at varied viewing angles.

Shown with locking single and double storage bays, which are available in two depths and 4 widths. Classic task light is optional.

MDT Series

For desktop mounting of CRT or LCD and can also be used with laptops. Shown with optional LCD monitor arm. Lots of lockable storage and like the entire line, can be outfitted with rack mounting, pull-out shelves for document cameras, lighting, event timer and power/data ports.

MSS Series

Mount 14-21 inch CRT monitor in sub-surface position under tempered glass.

MLT Series

Complete with power/data ports and lots of lockable storage. Can be outfitted like the MDT to lock and secure AV equipment and doc cams.

Mplex®

Multimedia Computer Podiums
