

SMARTdesks™ SPEX Component and Equipment Cabinets Product Specs

SPX-363088-MVV Dual Video Monitor Tower

Materials and Construction Specifications

Top Surface and Base Panels - 0.020" thick melamine coated finish thermally fused to both sides of 19mm thick 47 lb. medium density particleboard. All exposed edges (including bottom edges in contact with the floor - to prevent water damage) are banded in 3mm thick, color-thru PVC mechanically applied under pressure and heat.

Video Monitor Shelf (2) – 1" shelf thickness with steel support beam.

Locking doors – Doors with cylinder lock and key.

Adjustable Shelf – Adjustable, full-depth shelf is standard.

Construction – European 32mm woodworking technology employing steel-to-steel pin and cam connections (thru-drilled for full panel integrity) where needed to provide durability, ease of assembly and modularity.

Heavy-Duty Casters - Concealed, heavy-duty casters with locks allow rge unit to be rolled out for access to the rear of the unit.

Integral Wire Management™ - Horizontal wire channeling, 80mm side access grommets are positioned to align with other components and wall power/data access points.
