*Introducing the
Snapflex[™] System*

by

SMARTdesks[™]

SMARTdesks™ SF Series

Snapflex™ is designed with economic, interchangeable surfaces that simply snap on and off accommodating a vast array of modular insert options that snap into place.

You can make a commitment to technology today...

...and change tomorrow without worrying about the furniture.

Snapflex™

Desking System

w/ Semi-Recessed
CRT or LCD Monitor

Snapflex™ Engineering

- Handles all LCD displays or up to 19" CRT monitors without wasted surface area.
- Fixed system requires no adjustment once assembled to your requirements.
- Rich, clean, panel-based design is easy to touch and won't snag clothes or bookbags.
- Fine furniture detailing with decorative PVC trim, full height modesty and side panels.
- Modular construction offers easy assembly in 5 minutes with simple tools.

*DST-723028-CxF ~ SNAPflex™
for LCD display*

Snapflex™ Ergonomics

- Provides a balance between computer and paper-based training materials.
- Takes up less space than a similar desk with a pull-out keyboard tray.
- 14" deep, keyboard/ mouse and writing platform is full-width and set at 28" high.
- Provides more writing surface than a table with a computer on top.
- Maintains an unobstructed line-of-sight between student and instructor.
- Positions the monitor within the student's natural field of view.
- Provides plenty of surface area for texts and writing materials.

Snapflex™ Component Parts and Surface Options

- Protects valuable equipment, wires and cables from damage and abuse.
- Access to cabling does not require removal of equipment to make connections.
- Accommodate all LCD displays or up to 19" CRT monitors without wasted surface area.
- For IT maintenance, snap open the rear deck to access CPU connections and cables.
- Exclusive Convertible CPU Cabinet, accommodates mid-tower or desktop CPU.
- Additional storage (for headsets, media, etc.) on a shelf above the CPUs.

Snap!

Top surfaces optimized for standard monitors snap out.

Snap!

An upgrade to LCD monitors lets you upgrade with options, such as task lighting and power/data ports.

Snap!

New top surfaces optimized for LCD monitors snap in. Look at the increase in work space!

SMARTdesks™ SF Series

The Snapflex Desking System™ adapts to future technology with a design that also meets the requirements of cognitive learning in today's classroom.

Snapflex™ Options:

- 20" extra-deep keyboarding/writing surfaces to be used with LCD monitors.
- Inexpensive replacement rear decks enable you to change the way Snapflex™ functions without buying new furniture.
- Task lights in a variety of styles and output mount in rear deck grommets.
- An assortment of Power/Data Ports are available to enable you to connect laptops, printers and other peripherals.
- Headset Grommets provide a rear deck jack to connect to the CPU.
- Keyboard holster, mounted to the modesty panel, clears the worksurface when needed for other functions.
- Pullout shelves and locking utility drawers offer additional storage and accessibility.
- CPU bay is sized to be fitted with optional rack-mount standards.
- Locking CPU bay doors and cable locks are available security options.
- Locking dual-wheel casters offer mobility for easy room rearrangement.
- Custom sizes and configurations available to meet special needs and situations.
- Laminate casework to match or coordinate with worksurfaces.
