

MFI Series flipIT® Podium

flipIT Multi-Use | Tech Storage | Customized to order

The MFI Series provides an ergonomic presentation platform that is also a secure enclosure for equipment, media, supplies, and a central location for controls.

SMARTdesks' patented flipIT® Monitor Mount provides a semi-recessed view of the display to eliminate any line-of-sight obstruction between instructor and student. The LCD screen is visible to the teacher from behind and to the sides of the podium for freedom of movement while lecturing.

Podiums are 30 inches deep, 42 inches high and are sized in 4 widths: 30, 36, 54 and 60 inches. The narrower versions have storage below and the wider podiums have an additional storage bay to the side.

MFI

MFI-303042-K19 | L18

Single bay lectern (30" w x 30" d x 42" h) w/flipIT® FIK-19 or FIL-18 Laptop Safe. Locking doors, Pullout keyboard/mouse platform, power switch and supply, integral wire management.
