INTERACT G2 UT

The Interact G2 UT is an ideal power and data solution for small sized conference areas and meeting rooms where the installers would like to fabricate their own lid. Versions are available with and without powerful 2.1 amp USBs for powering wireless devices even while in use. An additional convenience outlet is included underneath each unit for added utility power.

INTERACT G2 UNDERTABLE

2 power on top, 1 convenience receptacle, 2 knockouts, 1 cutout for telecom plate

Interact UT LA	Interact Lid for use with Trim Pivot Kit	Brushed and Clear Anodized Aluminum

Product Dimensions

INTERACT G2 UT WITH USB

INTERACT G2 UT POWER ONLY

When installing Interact G2 UT, the inside of the cutout is exposed and therefore needs to be edge banded or finished during the building process. These are not intended to be cut and installed in the field.
